**Annual Safety Goals**

With the coming of each new year, we have the opportunity to set safety goals. The premise for the setting of safety goals is so that we know what we want to achieve in the end. We set up objectives or milestones or performance indicators so that we know that we are meeting or we are working toward meeting our ultimate goals. The setting of safety goals is similar to that of planning a trip.

Very few people travel without knowing where they are going...Safety Goals are similar in that we need to know what we need to do to reach this goal and how do we know if we are going to meet the goal?

**Read More...****2021 Open-Enrollment Training Schedule**

The 2021 open-enrollment Training Schedule is posted on the ***Training*** page. The upcoming classes are listed on the left side of this newsletter. We offer the OSHA 10-hour Outreach General Industry or Construction Industry Safety, First-aid/CPR, SafeLand USA, and Hydrogen Sulfide Safety , all as open-enrollment in-person classes. These same courses and many, many, more are available for in-person classes as well as virtual training.
