Upcoming Events**Stay Tuned!****[Register for a Class](#)****Safety Leadership in the O&G Industry - Training**

Safety leadership is everyone on the team, crew, site. There is a distinct difference between leadership and management. Everyone can be a safety leader regardless of their job title.

“Safety Leadership is any person that has the *courage* to demonstrate that they value safety by working and communicating with team members to identify and limit hazardous situations...”

West Virginia University Safety & Health Extension, through an OSHA Susan Harwood Training Grant has developed another outstanding training course titled “Fundamentals of Safety Leadership for the Oil & Gas Industry” ...[Read More...](#)

OSHA Initiates a NEP to Protect Workers from Indoor and Outdoor Heat Hazards

Through this OSHA NEP, OSHA will conduct heat-related workplace inspections before workers suffer completely preventable injuries, illnesses or, even worse, fatalities.

Heat illness affects thousands of indoor and outdoor workers each year and can tragically lead to death. Reducing workplace heat-related illnesses and injuries is a top priority for OSHA, this NEP is intended by OSHA to immediately improve enforcement and compliance efforts, while continuing long-term work to establish a heat illness prevention rule.

Tragically, the three-year average of workplace deaths caused by heat has doubled since the early 1990s... [Read More!](#)
