### **What If You Weren't There?**

Have you ever wondered if what you do or say really makes any difference in workplace safety? Does it seem that on a day-to-day basis you aren't making the progress you want or that you expect to? Do you ever think that safety in the workplace in which you are working would be the same with or without you? Do you feel that you are not really making any real difference in the safety of the workers that you interact with on a daily basis?

Think about it this way, if you were not there what would the workplace safety be like?

**National Safety Council Issues Statement on Cannabis Rescheduling**

The National Safety Council released a statement regarding President Trump's signing of an executive order directing his attorney general to expedite the completion of the rescheduling process for cannabis. The move would reclassify cannabis as a less dangerous drug and expand opportunities for research however "....it must come with substantive risk mitigation,"

More information is available on the on the page and link below:
