Wayne Vanderhoof, Speaker

Spring Weather in Your Emergency Action Plan (EAP)

With Spring being upon us, now is the time to review your Emergency Action Plan and how it specifically addresses Spring weather hazards for your employees. We should assess for the types of hazards that Spring weather presents...Then review with our employees how these hazards and types of emergencies may develop including refreshing training...on potential emergencies.

The Spring weather hazards to address in the northeast U.S. are...[Read More...](#)

2023 Fall Prevention Stand Down Planning

Fatalities caused by falls from elevation continue to be a leading cause of death for construction employees, accounting for 38% of construction fatalities recorded in 2021 per BLS data. This is a 3% *increase* from the 2020 BLS data. **Those deaths were preventable...** While the statistics are not stated here, there are many worker fatalities in the manufacturing/industrial industries (General Industry) as well that were just as tragic and just as preventable...[Read More!](#)
